ERHARDT PROJECTS PART
OF ERHARDT COMPANY

ERHARDT

140 YEARS OF HISTORY

4th generation family business.

900 People, **30** Companies, **27** Locations and presence in 150 Countries.

4 Business Lines: Logistics & Maritime Services, Steel & Trading, Insurance & Risk Management and Technology.

8 Cargo Terminals in Spain & France: La Coruña Inner and Outer Ports, Ferrol Outer Port, Vigo, Cartagena, Bermeo, Villagarcía and Bayone Ports.

7 Certifications endorsing our commitment to quality, safety and sustainability.

GENERAL MANAGER'S MESSAGE

IGOR MUÑIZ TINOCO

Founded in 1998 in Spain ERHARDT PROJECTS today is a Global **Project Cargo Logistics Operator** thanks to its "Boutique & Unique" strategy, which has enabled it to consolidate its position in the sector, providing tailor-made, integral and innovative solutions, working side-by-side with clients, suppliers and partners.

Over the past three years, the company has focused on introducing **best practices** in the Project Cargo Sector, incorporating the **finest professionals**, securing major contracts, and forging **long-term relationships** with clients and suppliers both at home and abroad, while at the same time digitizing its operations.

The company caters for **clients with global needs**, increasing its business volume through its operations all over the world. It has assembled a team of professionals that combine in-depth business nous with expertise in data management and transport engineering, merging an analytical mindset with a determination to adopt a hands-on approach.

The company has undertaken a **process of digital transformation**, while also also **launching NETERH**, a digital platform that enables organizations to effectively integrate their logistics data, decision-making, and operating procedures.

The company has recently **rebranded, opening an office in Abu Dhabi** to align with its new circumstances as a global business partner ready to deploy whenever and wherever the project requires and prepared to have a positive impact on our clients' results.

ERHARDT Projects

VISION

An innovative, open and digital partner for our clients

We work together to design open and digital solutions, ensuring the highest standards, without being deterred by how complex or demanding the parameters may be. We focus on our clients through our determination to understand their challenges in order to provide "Boutique & Unique" solutions.

MISSION

Be where the PROJECT is, FIRST

We specialise in the niche market of Industrial Project Transport, with broad expertise and experience in turnkey projects, engineering, and shipments, through which we provide our clients with value in the different areas of their businesses.

ERHARDT

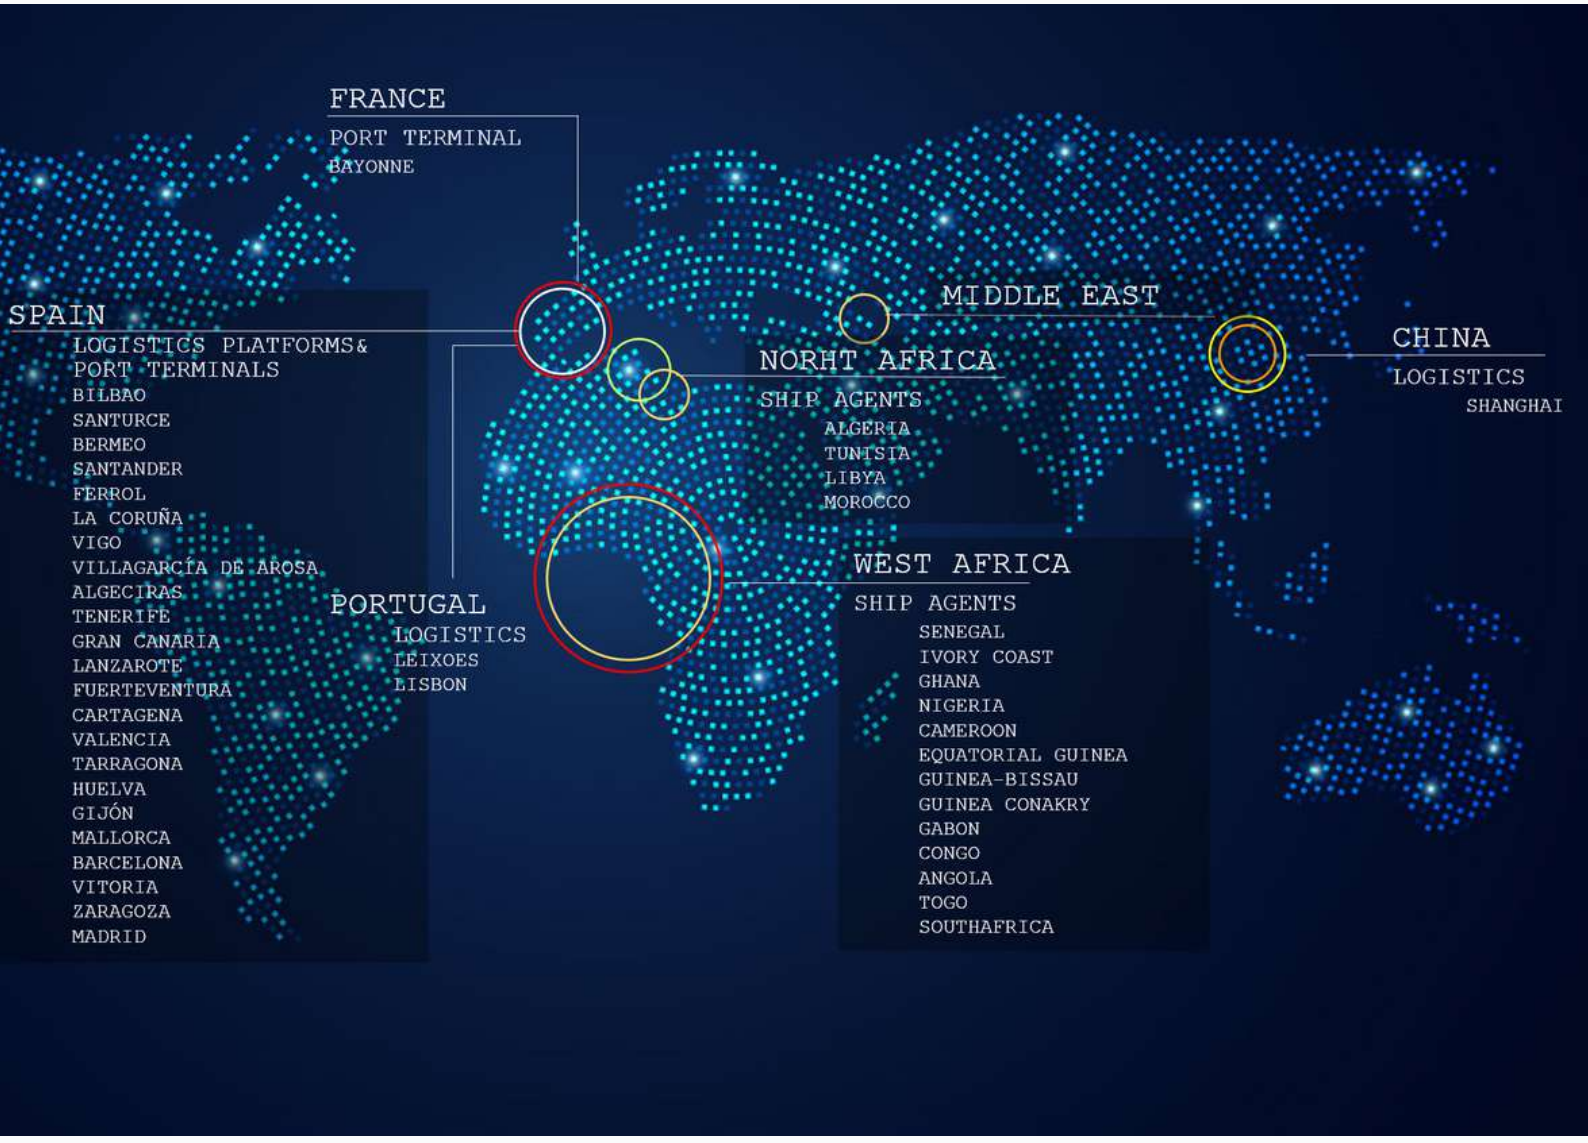
- Commitment

ERHARDT Projects

GLOBAL PRESENCE

Erhardt's membership and our network of partners, collaborators and agents, allows us to have a global presence.



ERHARDT Projects

TURNKEY PROJECTS

PROVIDING BEST SOLUTIONS

ERHARDT Projects

TRANSPORT ENGINEERING

SERVICES

Transport Analysis and Strategies

We explore all available means of transport, selecting the best possible strategy to suit each case.

Technical Studies

We conduct detailed studies to ensure the safety and viability of the proposed solution.

Comprehensive Operations' Management

We plan, supervise, and manage transport operations in situ. We monitor, prevent and mitigate their associated risks. We provide our clients with just-in-time reports.

In-House Design and Construction

SOME ACTIVITIES

We design and develop transport structures, safety features, and lifting devices.

TAILOR MADE SOLUTIONS

SERVICES

Chartering Vessels

We are responsible for chartering the most suitable vessel:

Coasters and river traffic – Self-contained vessels - Tweendeckers - Heavy Lift vessels - Super Heavy Lift vessels - Ro-Ro vessels - Barges and semi-submergible vessels - Ocean-going barges – Offshore supply vessels.

Ongoing Risk Management

We continuously monitor expected risks and proceed swiftly to minimise their impact.

Advisory and Arrangement of Policies and Insurances

We locate, compare, select and arrange charter policies and the insurance that most comprehensively covers the value of the cargo to be shipped.

OFFSHORE & MODULAR SUPER HEAVY LIFT

SERVICES

Technical Engineering

We study and propose possible routes. We assess infrastructures and the suitability of shipping equipment. We provide mooring, towing and ballast solutions. We design special packaging for each kind of cargo.

Risk Assurance

We undertake and oversee a project from beginning to end, controlling for any expected risks that may arise in the contract throughout its performance, immediately proposing measures for dealing with unexpected ones.

Door-to-Door Solutions

We select and charter the most appropriate vessel. We embark and attach the piece/s securely in place. We manage the necessary customs procedures. We disembark and warehouse the cargo or arrange its last mile using dedicated vehicles.

INTEGRATED LOGISTICS

SERVICES

Ocean Freight

Standard/RO-RO. FCL/LCL shipments.

Road Freight

Comprehensive. Group. Special.

Storage and Distribution

Warehousing. Collecting. Temporary Storage Facility (ADT in Spanish). Authorised Warehouse for Export Goods (LAMEs in Spanish). Customs Warehouse (DA in Spanish). Packaging. Dangerous Goods (ADR). Consolidation of suppliers and clients- Pickup and delivery.

Air Freight

Special Cargos. Large Dimensions. Critical Time Solutions.

Customs Clearance

Import. Export. Documentation.

Shipping Insurance

Risk insurance with coverage to cater for each need.

RISK & COMPLIANCE MANAGEMENT

SERVICES

Risk Advisory

We identify, analyse, assess and propose measures for all those situations that may have a negative impact on the shipment operations clients have entrusted to us.

Risk Assurance

We track down and manage the arrangement of the best solutions available on the insurance market at any given time in order to provide coverage for the different types of risks identified.

ERHARDT
Projects

BEYOND EXPECTATIONS

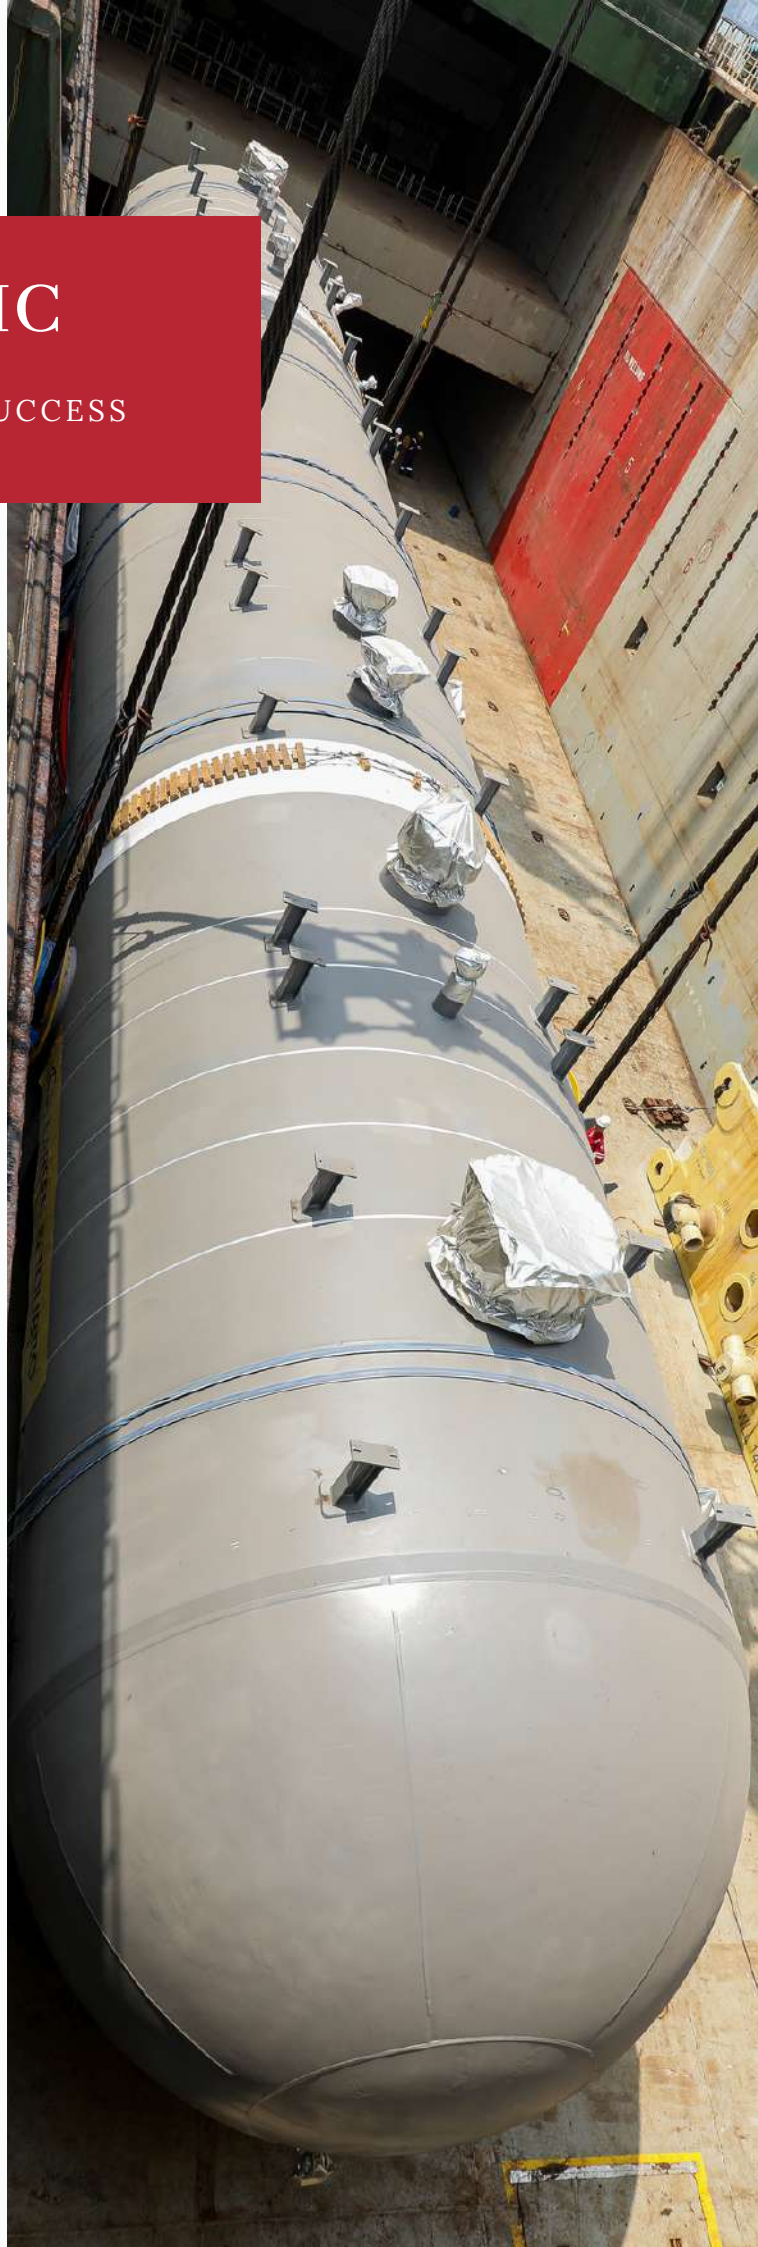
ERHARDT Projects

CUSTOMER CENTRIC

CUSTOMERS' SUCCESS IS OUR OWN SUCCESS

We understand each project as unique. We design innovative and customized solutions for each transport operation faced by our customers, and we rely on the expertise of the team and collaborators involved in it, to ensure its success.

We are always on hand whenever and wherever our clients may need us.



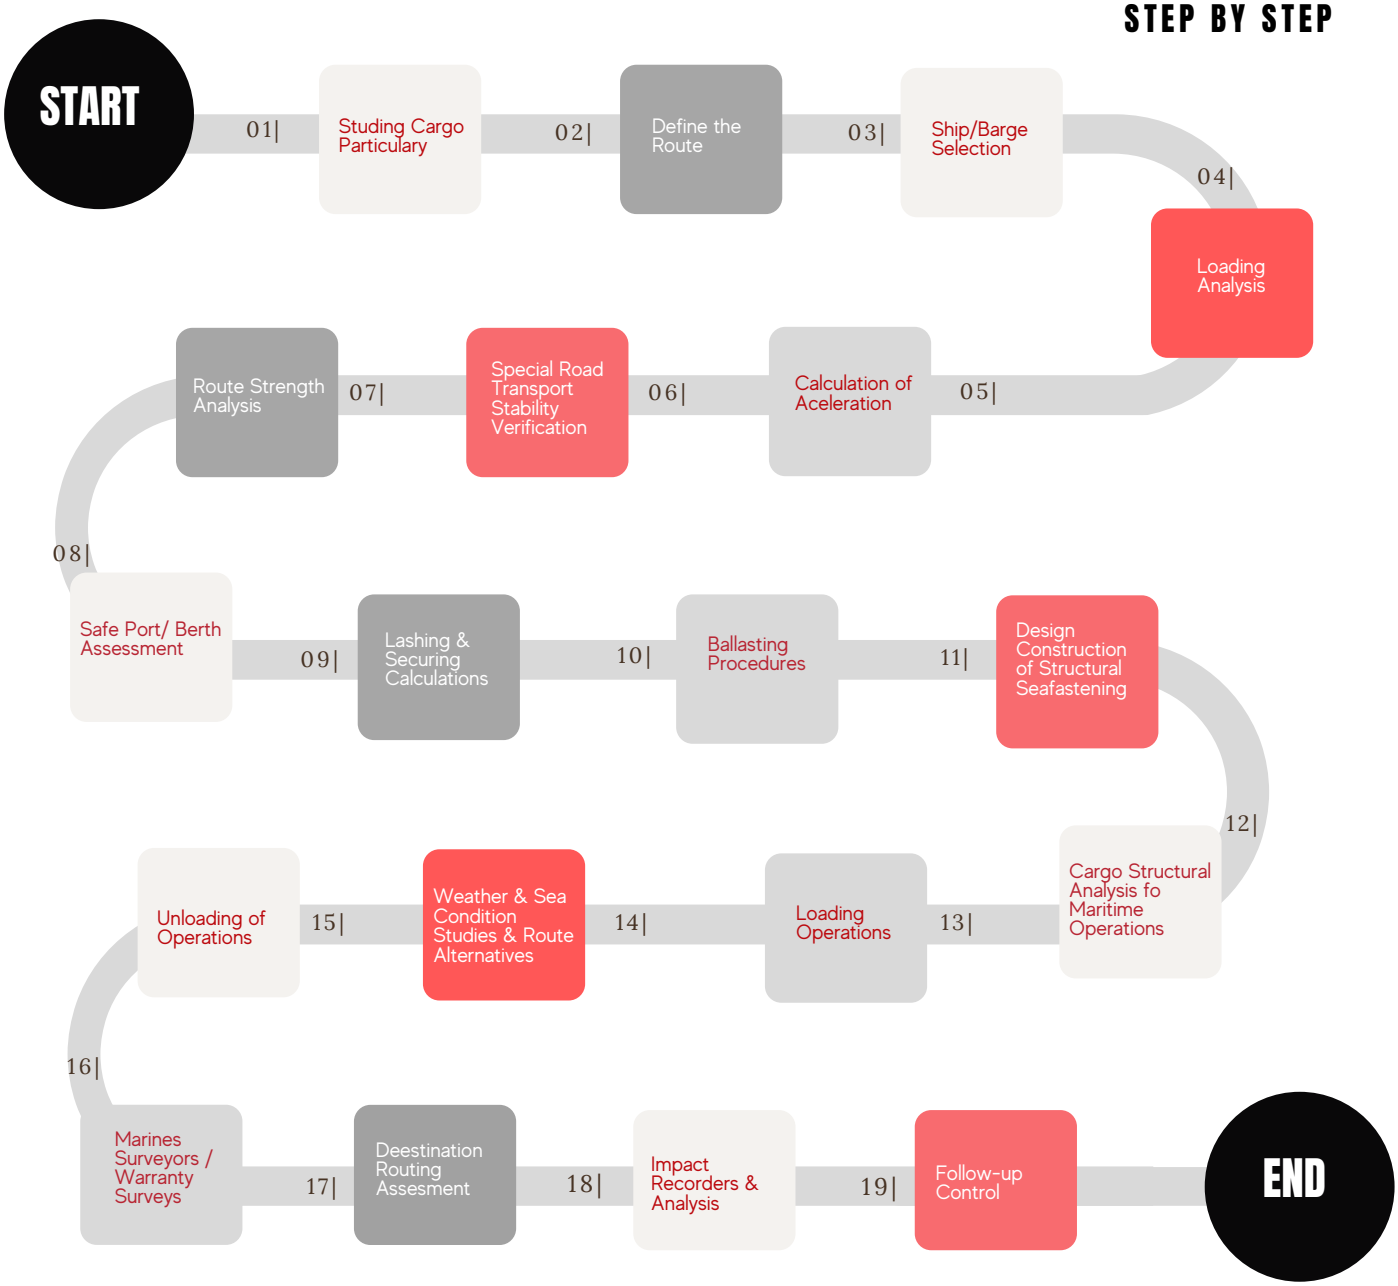
ERHARDT Projects

EXCELLENCE

FROM BEGINNING TO END, STARTING IN THE OFFER PHASE

We design each operation taking into account the overall efficiency of the entire logistics chain, using a set of **methodologies and tools** associated with the field of engineering, with which we ensure maximum efficiency, safety and reliability of each transport solution.

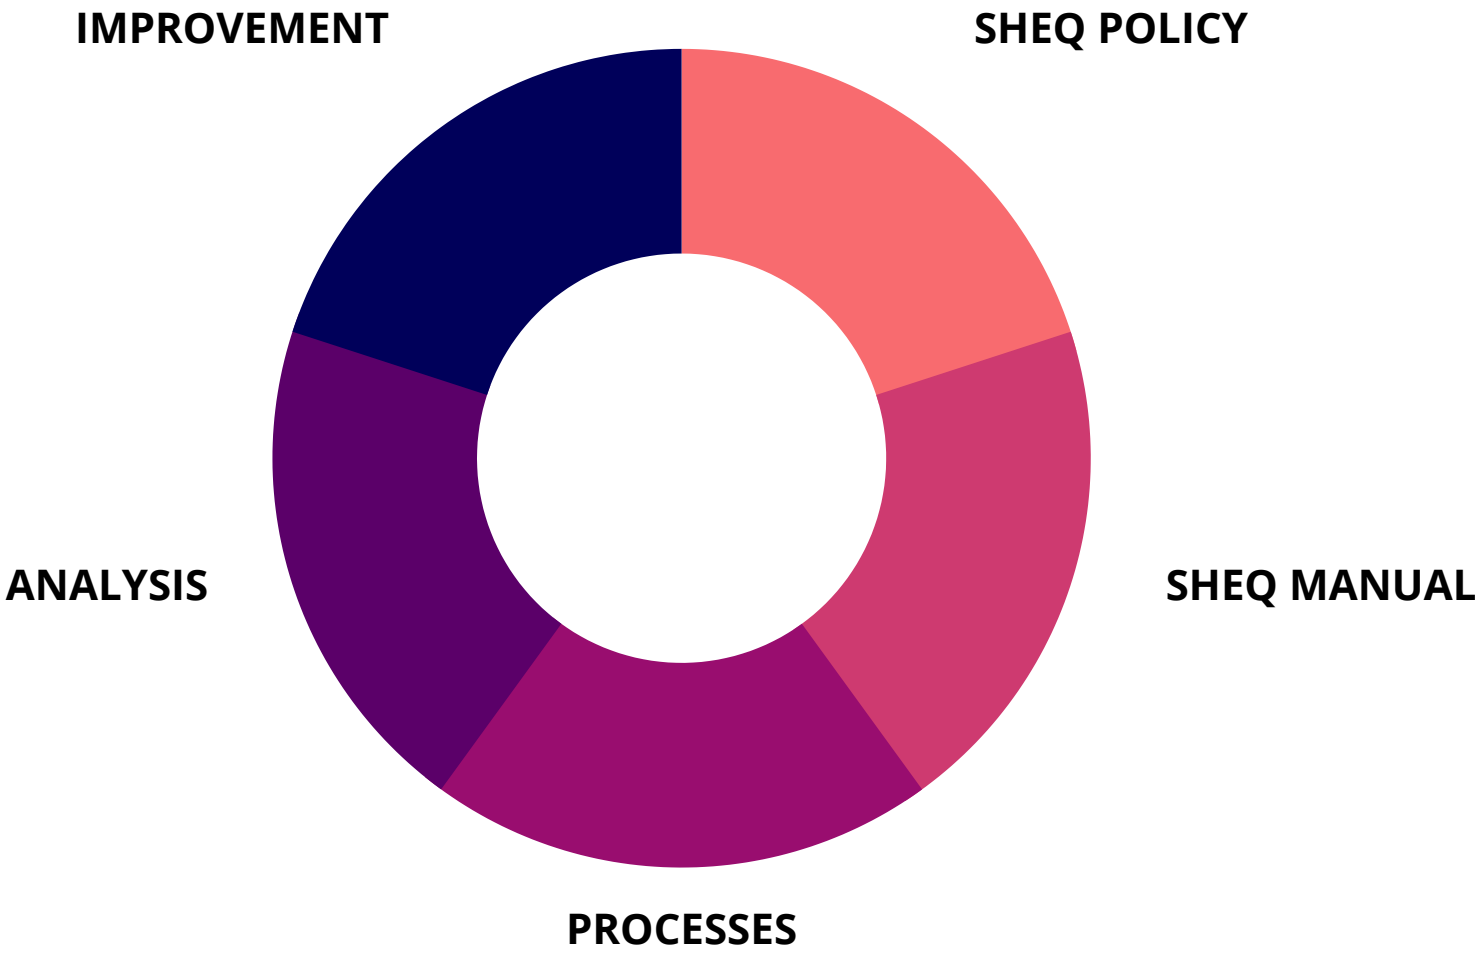
STEP BY STEP



SAFETY AND SUSTAINABILITY

HSSQ A TOP PRIORITY

We have our own **HSQE Management System,** with the certifications (ISO 9001, 14001) that allow us to comply with international quality and safety standards. We are always mindful of the strictest requirements in safety and sustainability when we design each logistics solution.

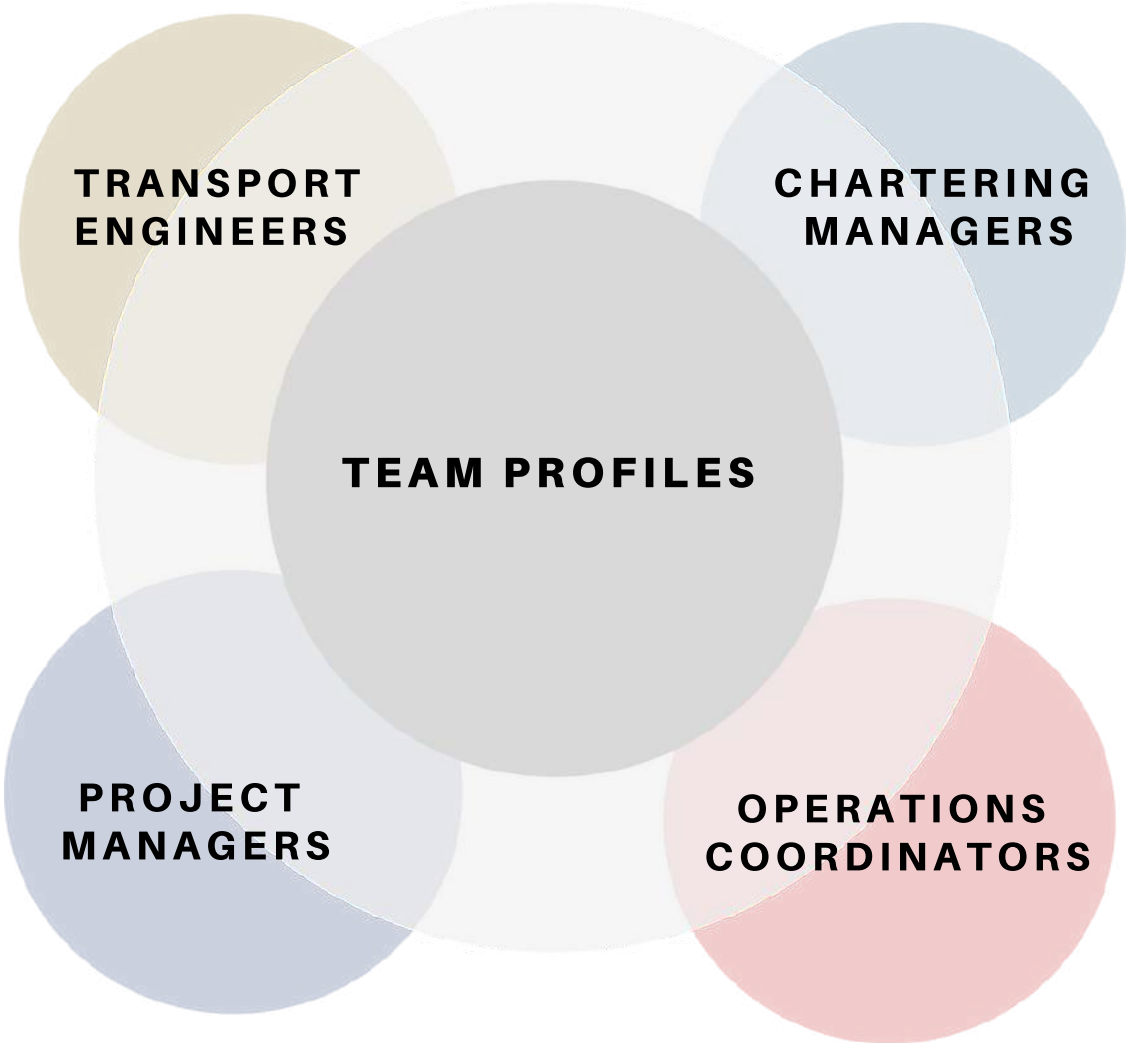


EXPERIENCE & VOCATION

WE TAKE CONTROL OF THE PROJECT TO ENSURE ITS SUCCESS

We are experts in the niche of **INDUSTRIAL PROJECT CARGO**, with extensive knowledge and experience in "turnkey" projects, providing our customers with **technical** and **operational value** in their logistics chain.

Our team have a great **professional vocation for logistics**. They fully engage with each shipment, supervising or participating with the utmost dedication. Their passion and their commitment ensure that each operation is successfully delivered on time, as they personally attend to and oversee all the details in each case.



INNOVATION

DIGITALIZING TO CREATE NEW VALUE SERVICES

We are digitalizing our processes to be more agile and flexible to the changing needs of our customers and help them provide valuable services from logistics, through NETERH, our digital solutions platform.

MAJOR PROJECTS ACCOMPLISHED
BY ERHARDT TEAM MEMBERS

OIL&GAS/MODULAR

Singular Operation India - KSA
Most critical equipment - 1.250 Tons.

Singular Operation in Europe
Most critical equipment - 1.000 Tons.

Sewa Project. Poland - UAE
Most critical equipment - Steam Turbine Generator 11.17 m x 4.16 m x 4.37 m (LxWxH) 292 Tons.

Sewa Project. Turkey & Antwerp - UAE
Most critical equipment -Transformer Main Body 12.50m x 4.50m x 4.40m (LxWxH) 289 Tons.

Sewa Project. Korea - Masan - UAE
Most critical equipment - Module 28.91.m x 4.24m x 3.56m (LxWxH) 267 Tons.

Singular Operation in Africa
Most critical equipment .Steam Turbine 9.40 m x 5.70 m x 5.35 m (LxWxH) 250 Tons.

OFFSHORE MODULAR

Optara. Modular Transport Project. Tarragona - Antwerp
Ocean and land transport of modules up to 1.000 Tons, using LoLo and RoRo vessels.

Atlantic Project. 3.000 Tons Wind Floater. Ferrol
Load out, barging, float off operation, tugging.

Merkur Project. 66 Transition Pieces, 330 Tons Each
Ocean transportation in upright position including design, and installation of grillage.

Dolwin6 Project. 2 consecutive maritime shipments of steel blocks for Dolwin6 wind farm platforms from Turkey to client factory in Puerto Real.
